Proper utilization and treatment to patients

Focus on J&P, tap into BE, understand RC

prediction of occurring situations

of pre-covid leads to major loss

What does your customer do to address the problem and get the job done? i.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace)

methodologies such as text mining and information retrieval

Understood what should be done to full fill their needs

Using predictive analysis powered by the Artificial intelligence which is used in analytics technique

If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.

**8.1 ONLINE CHANNELS** What kind of actions do customers take online? Extract online channels from box #7 Behaviour

SL

Usage of data Usage of **Artificial** exploration **Analytics Tools** 

**8.2 OFFLINE CHANNELS** 

Extract offline channels from box #7 Behaviour and use them for customer development.

Analysing manually about the daily **Improvement** 

Preparing the dataset on the COVID patients.
